

GENERAL ELEMENTS

The thesis can be written in Italian or in English. In any case, you must submit a written summary both in Italian and in English.

TEXT PRESENTATION FORMAT

The text of the thesis is typewritten on sheets in A4 format (210 mm x 297 mm), using both sides (two pages per sheet). A useful area of the page must be defined, established by the dimensions assigned to the white margins (horizontal and vertical) of the sheet.

For the internal edge of each page, the final binding must be taken into account, providing a space of 10-15 mm higher than the outer one. In this regard, it is convenient to ask to the bookbinding that will perform the binding.

The number of lines has to be at least 25 lines per side, with at least 60 characters per line. The line spacing used is 1.5 and the text is justified.

The pages must be numbered and the numbers must be placed on the bottom edge of each page, in a centered position. All pages of the text are numbered with Arabic numerals. Only the pages relating to preliminary components can be numbered separately with Roman numerals.

All pages of the text are counted for numbering purposes; however there is no page number on the title page, on the pages that contain only a title, on the white pages interposed.

INDICATIONS FOR PRINTING AND BINDING

It is advisable to use a laser printer. Figures and graphics can be colored.

Thesis binding's color is at the discretion of the speaker, independently from the material used (we recommend the use of cardboard, also light). On the cover you will put the data provided for the title page.

The copies of the thesis required for the Old Degree Procedure are: 1 for the graduate student, 1 for the supervisor, 1 for each co-examiner, 1 for the University archive. The latter, signed by the supervisor and the graduating student, must be handed over to the graduation commission. A copy of the thesis in PDF (in a single file) for the insertion in Padua thesis, the online archive of the degree theses of the University of Padua, is delivered at the central library of Agripolis. This deposit is not mandatory but strongly recommended.

INDICATIONS FOR PRESENTATION

The presentation of the thesis for the Old Degree Procedure must be done using PowerPoint and following the indications provided by the speaker. The presentation times are normally 10 minutes for the Bachelor degrees and 12 minutes for the Master degrees.

The file containing the presentation must be named with the surname of the graduating student, in order to facilitate the identification once copied on the PC.
